ISO 22000/HACCP
Food Safety Management Systems
Implementation
Road Map

ISO
22000:2005
FOOD SAFETY

10 Step Approach to ISO 22000/HACCP Certification

- **Awareness Training**
- **Food Safety Policy and Objectives Finalization**
- **Gap Analysis / Risk Assessment**
- **Documentation / Process Design**
- **Documentation / Process Implementation**
- **Internal Audit**
- **Management Review Meeting**
- **Pre-assessment Audit**
- **Corrective – Preventive Actions**
- **Final Certification Audit & Award of Certification**

Step 1: Awareness Training

Deliverables:-

Organization wide awareness about Food Safety Management System and ISO 22000:2005.

- Separate training sessions for Top Management, Middle Management and Junior level management.
- Creates a motivating environment throughout the organization for ISO 22000 implementation.

Step 2:- Food Safety Policy & Objectives

Deliverables:-

Development of Food Safety Policy and Objectives for the organization as per ISO 22000 standard.

- Work shop with Top Management / Middle Management on development of Food Safety Policy.
- Work shop with Top and Middle Level Functional Management on development of Food Safety Objectives and plan for achievement.

Step 3:- Gap Analysis / Risk Assessment

Deliverables:-

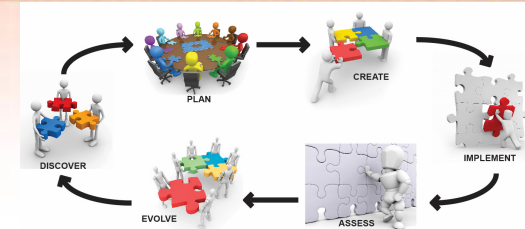

Identification of degree of compliance of existing system with requirements of ISO 22000 standard. Determination of how various food hazards impacts the food quality and generate risks.

- Understanding of all the operations of the organization.
- Carrying risk assessment for various processes of the organization. Identification of significant risks.
- Comparing existing operations with requirements of ISO 22000 standard.

Step 4:- Documentation / Process Design

Deliverables:-

Documentation of the entire process as per requirements of ISO 22000 Food Safety Management System.

- Food Safety Manual
- Functional & mandatory Procedures
- Formats / Operation control plan
- Work instructions / Guidelines
- Legal register, food safety training, accident / incident reporting, purchase, quality plans, etc.

Work-shop on design and development of documents as per ISO 22000 requirements.

Step 5:- Documentation / Process Implementation

Deliverables:-

Processes / Documents developed in the last module implemented across the organization covering all the departments and activities.

- Work–shop on process / document implementation as per ISO 22000 requirements.
- Departmental / Individual assistance in implementing the new processes / documents.
- Initiate Food Safety performance monitoring system

Step 6:- Internal Audit

Deliverables:-

A robust internal audit system for the organization.

- Internal Auditor Training & Examination.
- Successful employees carry out internal audit of the organization covering all the departments and operations.
- Suggest corrective and preventive actions for improvements in each of the audited departments.

Step 7:- Management Review Meeting

Deliverables:-

A formal system of top management reviewing various business critical Food Safety aspects of the organization.

- Review the Food Safety management system to ensure its continued suitability, adequacy and effectiveness.
- This management review must be documented and must address the need for changes to the Food Safety management system and assess opportunities for improvement.

....and develop action plan

Step 8:- Pre assessment Audit

Deliverables:-

A formal Pre Certification audit conducted to assess effectiveness of ISO 22000 implementation in the organization.

- A replica of final certification audit.
- Finds degree of compliance with ISO 22000 standard.
- Gives an idea to the employees about the conduct of the final certification audit.

Step 9:- Corrective – Preventive Actions

Deliverables:-

Organization ready for final certification audit.

- On the basis of pre-assessment audit conducted in the last step, all the non-conformities will be reviewed and our team will assist your employees to close by taking appropriate correction, corrective actions and identify preventive actions.
- A final review by our experts will ensure that all the NCs are closed effectively and the organization is ready for the final certification audit.

Step 10:- Final Certification Audit

Deliverables:-

Organization awarded ISO 22000 certification.

- You can select the certification body of your preference or else we can assist and suggest you the most appropriate certification body for your organization.
- We provide 100% onsite assistance and support to ensure smooth conduct and successful completion of audit.
- Upon the audit, your organization will be ***awarded ISO 22000 certification.***
